**Your 4th of July Celebration Committee is hard at work!**

Soon you will notice Patriotic decorations going up throughout the community, starting with light pole banners. Since it's the 250th Celebration, we're aiming to have the banners in place before Memorial Day Weekend to get in the patriotic spirit early – and we'll have more time to enjoy them.

We are looking for volunteers who would be willing to support us in hanging our Niguel Shores 4<sup>th</sup> of July banners. We anticipate that it would require about a two hour commitment. Please contact John Chis to learn how you can help at (949) 933-3734 or email him at [johnechis@outlook.com](mailto:johnechis@outlook.com).

There are four (4) alternating banner designs that are being installed on our light poles throughout the community, as well as in the park area behind the clubhouse. These are all reusable banners for future years, and the brackets will accommodate other holiday themes should the community decide to order others.

There is a 4th of July Celebration Committee Open House and Happy Hour scheduled for Sunday, May 17 from 3 to 5 pm in the Clubhouse. Refreshments and appetizers will be

served. All are welcome to hear the plans for the 4th and give you an opportunity to sign up to volunteer for one of the subcommittees or learn more about your volunteer role. Most volunteer positions involve only an hour or two of your time! Questions: email [niguelshoresjuly4thcommittee@yahoo.com](mailto:niguelshoresjuly4thcommittee@yahoo.com).

### **Garden Club Plant Sale – May 9, 2026**

### **Landscape Maintenance – Chemical Use**

A few months ago, members raised concerns to the Board concerning spraying of pesticides and herbicides by Harvest Landscaping onto grass areas in the community.

The Board met with Harvest and has developed a protocol to properly apply these chemicals on slopes and in planters. Harvest will spray slopes and planters between 1:00 pm to 3:00 p.m. only. They have provided NSCA with information to provide to residents prior to spraying, and extensive posting will be placed around the areas before being spraying. The technicians will be supervised by Harvest management, trained in chemical-applications, and the areas will be monitored until the chemicals have fully dried.

The next rotation map for the week of 5/11/26 and Safety Data Sheets are attached to this email and we will be updating all regularly. This information is also posted on the [niguelshores.org](http://niguelshores.org).
