Mariner Dr. Intersection – Safety Update

During the Homeowner's Forum at the most recent General Session Board meeting, a resident raised concerns about nighttime safety at the Mariner gate intersection. It was also noted that the existing stop signs were not reflective.

To improve safety, we replaced the eastbound and westbound stop signs at the Mariner entrance with reflective signs. We also installed a solar-powered spotlight on the westbound sign—the one drivers' encounter when coming up from the beach.

We appreciate the resident bringing this concern forward, and we believe these improvements will provide better visibility and a safer experience for residents and visitors traveling through the Mariner gate area at night.

A big thank you to resident Lily Ekuan for bringing this concern to the attention of NSCA!
